CALFED Bay-Delta Program
1416 Ninth St. Room 1155
Sacramento, CA 95814
State Clearinghouse Number 96032083

To Whom it May Concern,

More fresh water needs to flow through the Bay to restore habitat and the environment. It is essential that we implement more aggressive water conservation practices before CALFED decides if it should build more dams and expand existing reservoirs. These actions will cost taxpayers money and further degrade the Bay-Delta ecosystem.

Agriculture uses over 80% of the state's water supply. A small reduction in the amount of water lost to evaporation, achievable by switching to more efficient technology, can result in significant water savings.

Please invest in more water efficiency before deciding to build new dams and expand reservoirs.

Sincerely,

Name: KURT ANDERSON

Organization: _____

Address: 6603 WHITNEY ST.
